World Apartment Horror is a free, deliberately ragged film that, despite being a horror movie in the premise, is across good-natured and airy, more concerned with idiosyncratic comic performances and frenzied set-pieces than scares. The film is utilitarian in aesthetic for the most part, but assertive in its creation of tone and simple schematic narrative progression. The film's one-way, hooky premise sends junior-yakuza Ita to clean international catering from an apartment standing in the path of highway-construction. Hiroyuki Tanaka (actor, writer and director better known as Sabu) plays Ita as deteriorating and manic, stomping around with his boombox as he tries and fails and tries again to perform the single-handedly role he switched to him because his yakuza bosses don't want to. Ita, racist and impatient, wears himself to the threshold of exhaustion trying to communicate with Filipino, Korean and Pakistani tenants, dragging around a Chinese student studying in Japan as his translator. The script jams the exaggerated stereotype and Vaudeville breakdowns in communication, only to reveal a kind of auto-critical anti-Japanese exceptionalism at the beginning of the third act. World Apartment becomes essentially self-aware, creating a zone apart, an occult anarchist space outside the geographical and cultural lines of differentiation, as a kind of excuse for historic Japanese atrocities. Ita's brother Ira is the building's only Japanese resident who, at the beginning of the film, mysteriously warns Ita's ghosts in the building against disappearing. At first, Ita doesn't fear it until the strange emblems around the apartments and a series of supernatural encounters begin to convince him otherwise. At a time when Ita's interpreter recruits an African witch-doctor to oust an apartment complex (Evil has no nationality, he explains), any threats or surrealism created by the film's rare quiet moments is replaced by ecstatic comedies. The tone of World Apartment Horror strikingly resembles Evil Dead 2, and Ita even wields a chainsaw against a shaman in one scene. Like Raimi in his early work, Otomo manages to find dynamic ways to frame in a claustrophobic space, always rocking the camera and watching live-wire Ita as he runs screaming mad through the make-shift compositions. Obviously the movie is trying to say something about xenophobia, but it doesn't really work all right when most of your foreign characters are cartoons played for laughs.4 ruined cannabis plants2 breasts, twice 2 Lu's 1 X-Japan song1 phone oedd black kal1 cursed mask evil1 tracksuit religion-fuTwo stars. Go to content Go on the heels of Akira's global success gained Otomo the freedom to make this live-action feature, which began a cycle of films about the plight of Asian immigrants in Japan, most of them seriously sociological. This film, though, is a Yakuza horror comedy. The Black Dragon gang has its eye on a jumped apartment building rented to poor students and workers from Taiwan, China, Pakistan, the Philippines and Bangladesh. The first heavy sent to force the tenants out goes crazy. The second is Itta (Tanaka, now better known as the director under the name Sabu), who rushes in ego-first and finds herself facing not only up to the up of integrity of Asians, but also some very strong voodoo. Reviewed by Chris MaGeelImagine this dream line-up: a film directed by Akira creator Katsuhiro Otomo with a screenplay based on the story of Satoshi Kon, the man who brought us the Millennium Actress and Paprika and starring Hiroyuki Tanaka, a.k.a. Sabu, the director himself with films like Bad Luck Monkey and Blessing Bell. It's like a japanese movie fan's wet dream, but the best part is you don't have to imagine it. The three came together for the 1991 film World Apartment Horror, a broad satire of immigration in Japan based about one run down an apartment building. A young yakuza Ita, (Tanaka) is ordered by his bosses to succeed, where his brother gang Iri failed. The Kokuba clan bought a shabby apartment building with an eye on demolishing the building and rebuilding the land for profit. There's only one problem. It's not empty. There was no problem getting rid of the Japanese who lived on the ground floor, yakuza threw a little money there so, growled a little bit and they were gone. It's not like gaijin on the second floor. They just don't get a hint, and when Iri moved into the building to scare them he somehow ended up getting himself scared, gone crazy and disappeared. Now Ita has exactly a week to get these strangers buildings so that bulldozers can move in. It's a great setting and with stellar talent up front and behind the camera I had high hopes of going to World Apartment Horror, based on the manga of the then

protégé Satoshi Kon, but you know what happens when you have high expectations, right? They rarely get met, but I'm glad to report that with the exception of a few minor bumps this dream project brings, mainly because it doesn't give viewers what they expect. The first of the title is a little misleading. The last thing World Apartment Horror is a full-fledged horror movie. Yes, there is a supernatural element to the plot with the old Iri (and Ita's new) apartment reportedly haunted, but aside from Ôtomo doing a masterful job of setting up a haunted house mood spirit at the end of the hallway it is repeatedly upstaged by tenants living on the floor. With a middle-aged Pakistani man, Filipino, who works as a doorman in a hostess bar, a group of Chinese workers who have a thing for mahjong, an almost dumb man from India and a Taiwanese student learning Japanese residents of the building represent a cross-section of the rest of Asia, with Ita standing in for island Japanese who would much rather have these gaijin back in their own countries. Culture conflict, though motivated by prejudice and intolerance never comes across as ugly. Instead, the run-ins between Ita and his new neighbors are hilarious. Yes, World Apartment Horror is a comedy. Ita's threats and statements that it is a yakuza have clashed with Chinese officials thinking his name is Mr. Yakosan. His late night howls of karaoke session backfire and tenants dancing in the hallways. Even if Ita goes so far as to have sex with his girlfriend in the open door of his apartment gaijin take the opportunity to gawk and then go about their night business. One by one Ôtomo and Kong ice us classic comedy episodes and Tanaka is perfect as a confused gangster. It's just like Ita's determination is starting to weaken and the evil spirit in his apartment makes him more and more paranoid makes World Apartment Horror start to falter, but only because foreign actors have more to do than act crazy. None of them ever win an Oscar, let's put it that way, but as for the plot I really love the fact that these poor immigrants are the first people to come to Ita's aid when the ghost inhabiting the building finally has it. Equal parts of the broad comedy and biting social metaphor of World Apartment Horror is the work of Katsuhiro Ôtomo, which should be better known. What better way to remind you of the importance of tolerance and understanding than through a little laughter? Laughter?
